Refurbishments and Conversions

Electra Form Industries offers complete services for the PET molding industry, including mold conversions and refurbishments. We successfully maintain original part quality, change preform designs and upgrade mold features while minimizing our clients' capital expenditures. Understanding the industry's demanding production requirements, EFI offers aggressive delivery schedules, helping our customers get their valuable molds back in production quickly.

All refurbishment or conversion programs start with a mold audit at the customers' plant. New components are manufactured in advance, therefore minimizing machine downtime to three weeks or less.

EFI offers:

- Mold refurbishment and conversion programs that are uniquely customer-driven and offer the most cost effective solution
- One year of warranty coverage on all refurbishments and conversions
- Fast and flexible turnaround time
- Customer on-site programs that maximize machine uptime
- Customized stocking of standard components for planned annual programs

Our staff will work with you to provide the "Best Value Solution" to fit your specific request. With over 20 years of experience in the PET mold building industry, EFI continues to be a leading supplier of new and revitalized molds.

EFI offers complete or partial mold refurbishments and conversions including new or altered components, end of arm tooling and a detailed review of functionality and longevity. Molds can be tested in our Technical Service department to ensure complete customer satisfaction.

Dedicated Emergency Component Repair

Electra Form Industries offers complete repair and refurbish services for components. Thread Splits, cavities, and cores can be repaired at costs significantly lower than replacement.

Our dedicated repair experts evaluate each component for damage and wear. All components are precisely machined to original specifications to ensure top-quality molded parts.

Typical services includes:

- Evaluation and estimation provided before work begins
- Flexible and reliable scheduling
- "Best Value" pricing
- Fast deliveries matching customer expectations

EFI realizes the importance of fast turnaround times. Spare parts and dedicated production components are repaired quickly and accurately to help you maintain crucial production schedules.

EFI is innovative in all aspects of our business, including repair. Our unique solutions save customers time and money. For example, EFI offers PCO lead thread geometry alterations, shipped within 24 hours of receipt. To date, EFI has altered more than 2000 thread splits in the last 12 months.

EFI molds offer best value, fast delivery and service response, and are supported by ISO 9001 quality standards unique in preform mold-making. EFI - the industry choice for PET mold services.
