

Electra Form Industries (EFI) is a PET preform and mold manufacturer headquartered in Vandalia, Ohio, USA. Our goal is to consistently provide best value through a reliable, quality product and customer experience, by leveraging our capabilities, caring service, and vertical integration with our parent company (Wentworth Technologies).

We love to meet customers, understand their stories, learn about their businesses, needs, and goals, and help them bring their vision to market. We take pride in delivering products to our customers when we said we'd do it, how we said we'd do it, and help you take care of your own.

Welcome to Electra Form - your midwestern supplier with that handshake feel.
